SUMMARY

I am Rohit Kumar, a passionate Full Stack Developer with expertise in Java and modern web technologies. I specialize in building scalable and responsive web applications using Java, Spring Boot, Hibernate, and RESTful APIs on the backend, along with React and JavaScript for dynamic front-end development. Proficient in MySQL, MongoDB, and cloud technologies. Currently pursuing a B.Tech at MIT Meerut (2022–2025), I am dedicated to delivering innovative solutions.

TECHNICAL SKILLS

React .js	JAVA Developer	Spring Framework
Three.js	RESTful API	SpringBoot
Git & Github	Mysql	Web Services
Javascript	Tailwind	DSA With JAVA

PROFESSIONAL PROJECTS

Incredible Facade Consulting & Engineering Services Pvt. Ltd. || [Live Dashboard](#)

Full-Stack Development & Enhanced Functionality – Developed a dynamic, user-friendly website with secure backend systems for data management, project categorization, testimonials, email automation, user tracking, and team management.

Project Leadership & Optimization – Led development from concept to deployment, ensuring responsive design, SEO optimization, and rigorous end-to-end testing for a high-performance final product.

AI Chat Bot Using API || [Live Dashboard](#)

AI-Powered Chatbot with Secure Authentication – Built a smart chatbot using the Gemini API for text and image solutions, featuring OTP-based signup and secure login. Designed an intuitive UI with database integration for seamless performance and user experience.

E-Commerce Website || [Live Dashboard](#)

Developed and deployed a responsive E-Commerce Web App, integrating secure authentication, dynamic product listings, and a seamless checkout experience. Utilized React for the frontend, Java for backend logic, and MongoDB for scalable data storage, ensuring a robust and user-friendly full-stack shopping experience.
